Progress Summary: Gnostic Studies Focus

1. Gnostic Studies Curriculum (Primary Focus)

We are refining the four-phase training program based on the provided manuals:

- **Phase 1: Foundations:** Heart-Center Invocation ("Sophia, I remember").
- **Phase 2: The Archonic System:** Thought-observation, labeling, and identifying the 7 primary Archons (Saturn/Athoth, etc.).
- **Phase 3: The Subtle Body:** Weekly planetary tracking and metabolic awareness of "broadcasts."
- **Phase 4: Initiatory Ascent:** The Five Seals roadmap (Recognition, Activation, Embodiment, Mastery, Remembrance).

2. Gnostic-Centric ESL Integration

Grammar and vocabulary are now taught *through* Gnostic themes:

- **Identification:** Using the "Password Memorization Sheet" for identity and sovereignty statements.
- **Observation:** Using the "Thought-Observation Log" to practice descriptive labeling.
- **Cosmology:** Simplifying the "Sophia's Choice" narrative for beginner English levels.

3. Organizational Updates

- **Gnostic Archive:** Centralizing data from "Manual 1," "Initiatory Gnostic Training Manual," and "Pistis Sophia" research notes.
- **Secondary Folder:** All non-Gnostic ESL resources (e.g., standard lesson plan sites, Reddit threads, general grammar guides) have been moved to secondary storage to declutter the current workspace.

4. Immediate Next Steps

- **Finalize the "Five Seals" visual roadmap.**
- **Create a beginner-level oral script** for the "Three-Breath Purification" (ZAMA ZAMA ÔZZA...).
- **Draft a "Human Types" (Hylic/Psychic/Pneumatic) classification activity** using simple English adjectives.
