

Master Directives and Channel Brief

This document serves as the foundational anchor for the YouTube channel production. It synthesizes the agreed-upon directives, audience profile, visual style, and content strategy.

1. Channel Identity and USP

The channel operates at the intersection of Gnosticism, etymology, symbology, and astrology. It bridges the gap between academic/evidential rigor (e.g., Graham Hancock) and symbolic depth (e.g., Jordan Maxwell, Santos Bonacci) by presenting information in a modern, highly visual documentary-essay format.

The Unique Selling Proposition (USP):

"A seeker's practical guide to esoteric knowledge—what it actually means for how you live and think."

The channel uses the complete Nag Hammadi collection and other primary texts as visual references, combined with the creator's personal journey as a seeker, to provide practical, modern applications of ancient wisdom.

2. Locked Directives

The following directives govern all content creation and production workflows:

1. **Audience:** Millennials and younger demographics who are already consuming esoteric content. They are informed but spiritually unanchored, seeking practical modern applications rather than purely academic information.
2. **Tone:** Peer-to-peer, warm, intelligent, and witty. The tone must never be academic, preachy, or superior.
3. **Entry Point:** Every episode must start from a point of shared human experience before introducing any ancient or esoteric concepts.
4. **Visuals Lead:** Visuals always lead the narrative. Every episode opens with a silent visual sequence—no narration or text overlay until the visual story has established the concept independently.
5. **Episode-Specific Sourcing:** Every episode has its own dedicated source list. Only material that directly aligns with that specific episode's content goal is included.
6. **Search Optimization:** Episode titles and descriptions must always incorporate verified trending search language for discoverability.
7. **Santos Bonacci Content:** Only pre-2015 material from Santos Bonacci is cleared for use. As an admin of his Facebook page, this content is fully cleared, and cross-posting

to his page is a primary distribution channel.

8. **Jordan Maxwell Content:** Jordan Maxwell's work is to be used as a cited reference only (by name and ideas). No visual clips are to be used due to paywall and trademark restrictions.
9. **Visual Sourcing:** All visuals are sourced directly from reference material (existing footage, presentations, and content from named creators and primary sources). Pixabay and Pexels are the primary free footage libraries for B-roll.
10. **Harry B. Joseph & Cullen Smith Content (Pending Permission):** Both creators encourage sharing their work, but explicit permission for transformative reuse (re-editing, annotating, and monetizing) must be obtained before using their video clips. Until then, their work is used as cited references and static visual evidence (e.g., PDFs).

3. Trial Episode: "Why Every Ancient Civilisation Worshipped The Sun — And Why You Should Care"

Goal: To show the viewer that what they interact with every day has been understood as divine consciousness across every ancient culture simultaneously.

Visual Sequence (The Open):

- Ancient Egyptian Ra imagery
- Stonehenge solstice alignment footage
- Mayan temple sun alignment
- Inca sun worship artwork
- Cut to a modern person—face in sunlight, eyes closed
- *First text appears on screen*

Primary Sources:

- Santos Bonacci: "Astrotheology In The Bible" (2011 presentation)
- Nag Hammadi: Apocryphon of John
- The Emerald Tablet
- Harry B. Joseph (Revival of Wisdom) PDFs

4. Production Workflow

1. **Scripting:** Scripts are generated following a defined structure (hook → evidence → symbol → reveal), maintaining the established tone.

2. **Visuals:** Visual overlays and B-roll are selected based on the episode's specific source list.
 3. **AI Avatar/Voice:** An AI avatar (e.g., HeyGen) or voice clone (e.g., ElevenLabs) is used to deliver the narration, keeping the focus on the content and visuals.
 4. **Editing:** Dynamic transitions, on-screen text annotations, and source citations are layered over the visuals and audio.
-

Appendix: Permission Request Template

To ensure full compliance with YouTube's "Reused Content" policy and respect the creators' intellectual property, use the following template to request explicit permission from Cullen Smith (Lifting the Veil) and Harry B. Joseph (Revival of Wisdom).

Subject: Request for permission to feature your work in a new educational YouTube series

Body:

Hi [Creator's Name],

I've been following your work for a long time, and your insights on [specific topic, e.g., esoteric etymology / the Book of Wisdom] have deeply inspired my own journey as a seeker.

I am currently producing a new YouTube channel aimed at making esoteric knowledge practical and accessible for a younger audience. The format is a highly visual, documentary-essay style.

I noticed you encourage sharing your work, and I would love to feature short, transformative clips of your presentations in my videos. To be completely transparent, I will be:

- Using short excerpts (under fair use guidelines)
- Adding my own original commentary, annotations, and visual overlays
- Always providing clear, on-screen citations and direct links to your original channel/website in the description

Before I proceed, I want to ensure I have your explicit blessing to reuse and transform your content in this way. I am happy to share a private link to my first pilot episode so you can see exactly how your work is being honored and credited.

Thank you for everything you do, and I look forward to hearing from you.

Best regards,

TEE
